TJD-073

Economical cutters PCD z=1+1

New construction!

PCD shank cutter, **resharpenable 3-4 times**, offered with new geometry with cutting tips placed all over the working part perimeter.

New design of the TJD-073 cutter, including cutting tips position allows for better chip flow during work which results in **increased life of the tool and better cutting quality**.

Shank cutters TJD-073 are designed for top-spindle CNC routers.
